Scottish Government

Here in Scotland, we have legislation in place (Children (Equal Protection from Assault) (Scotland) Act) which protects children from **all forms of physical punishment** and gives them the same (equal) protection from assault as an adult. This includes smacking.

A parent / carer can be charged with assault in situations where they are / have been using physical chastisement against their child. When a child makes a disclosure in school related to being hit at home, it is our duty to report this, following our child protection guidelines.

More information can be found at the Scottish Government weblink: <https://www.gov.scot/publications/physical-punishment-and-discipline-of-children-how-the-law-is-changing/>

We know it can sometimes be difficult to cope with being a parent or carer. The Parent Club website (<https://www.parentclub.scot/articles/coping-with-being-a-parent>) has tips and advice to help parents.

If talking to someone might help, you can call Children 1st Parentline on **08000 28 22 33**. This is a free service.

Child Protection and Safeguarding at St Peter's School

Child protection is crucial, and it is essential that everyone understands the contribution they have to make in keeping all children and young people safe and protected from harm and abuse.

In school, should anything occur, it is our job to assess the situation then report and respond to concerns. We may have to phone the local authority's Joint Child Protection Team for advice. Following a discussion with them, we would then take the appropriate action that we are advised to take. This action can take many different forms, such as logging and monitoring, speaking to parents /carers or for more serious situations it may be that a meeting is called for professionals to explore concerns further.
